.....
.....

In order to retain its priority date, this application must be returned to the Department of Ecology, with corrections, on or before, 19.....

Witness my hand this day of, 19.....

SECTION MAP

Sec. 18 Twp. 34 N. R. 27 E. W. M.

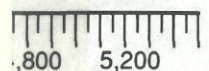

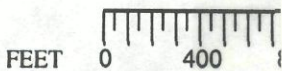

Scale: 1 inch = 800 feet (each small square = 10 acres)

Show by a cross (X) the location of point of diversion (surface water source) or point of withdrawal (ground water source). For ground water applications, show by a circle (O) the locations of other wells or works within a quarter of a mile.

Indicate traveling directions from nearest town in space below.

See location map attached as Exhibit B. Exact point of withdrawal undetermined at this time. To be within 43-acre boundary as provided on Exhibit B. Application to be amended to reflect exact point of withdrawal.

Travel approximately three miles North of Omak on Highway 97 to a point where the county road intersects Highway 97 on the right. You will note that directly North of the intersection of the county road and Highway 97, a sign is placed for "Riverview Floral Products." The property in question lies Southeast of this intersection, as shown on Exhibit B to the application.

Detach this scale at the performance, fold excess paper under or cut off excess by cutting along the scale line. This scale corresponds to the SECTION MAP above. You can read feet directly from this scale to outline property and locate points of diversion or withdrawal on the SECTION MAP. Enclose this map along with the application and \$10.00 examination fee.
